HOW TO ORDER A SOIL TEST KIT

Robert A. Ficano
County Executive

MSU Extension Service

5454 Venoy
Wayne, Michigan
48184

734/721-6576
FAX: 734/727-7233

Michigan State University Extension programs and materials are open to all without regard to race, color, national origin, sex, disability, age or religion

1. How many should you order? Each area to be tested should have the same type of soil and have been treated the same. For instance, if the soil in both the front and back yards is sand and has been fertilized and watered in the same way, only one test kit would be needed. However, if you wanted to test your yard and your garden, or, if the soil differed in the front and back yards, two (2) or more tests would be necessary.

2. The cost of each soil test kit is **$25.00, payable by <u>CHECK OR MONEY ORDER</u> <u>only</u>. Please make the check/money order out to MSU.**

3. Complete the information requested at the bottom of this form, and mail it in with your check/money order to:

   Michigan State University Extension
   Wayne County
   5454 Venoy Rd.
   Wayne, MI 48184
   Attn: Soil Test kit order

4. As soon as we receive your check, we will send you the kit, which includes instructions, an information sheet, and the box to hold the sample. Fill out the forms completely and send the sample to the MSU Soil Test Lab at the address on the kit for lab analysis.

5. As soon as the lab data is returned to the Extension Service, it will be examined, necessary comments will be added and the information will be sent to you.
